

SERVICES

- Comprehensive Asbestos Building Surveys
- Specification/Contract Administration
- On-Site Abatement Air Monitoring & Contractor Oversight
- Operations and Maintenance Program (O&M)
- Training Programs in Asbestos Management for Facilities Managers

Service Overview

Nova conducts asbestos surveys that meet Environmental Protection Agency (EPA) and Occupational Safety and Health Administration (OSHA) requirements. Nova's computerized program can update, change, and maintain facility information, including floor plans, digital photographs, and training data, and allows for on-site and off-site property management of multiple facilities. Nova's staff of project designers are EPA-certified to prepare asbestos abatement designs and specification to complete facility abatement projects. Nova manages abatement contracts from initial bid through final payment.

Nova's certified professionals provide abatement contractor oversight, project management, and on-site air sampling/analysis during asbestos abatement projects. Operation & Maintenance (O&M) programs cover essential training information for operations and maintenance personnel and outline specific work practices to prevent or control the disturbance of asbestos-containing materials.

Experience

Nova's professional staff includes Certified Industrial Hygienists, licensed Asbestos Inspectors, Management Planners, Supervisors, certified Abatement Project Designers, Air Sampling Professionals, and registered Engineers and Architects.

RICK LEINES, REM, CESCO

Vice President - Industrial Hygiene (IH) & Hazardous Materials Group

Mr. Leines is Vice President of the IH & Hazardous Materials Group, working out of Lenexa, Kansas. He has spent his 25+ years of experience in the environmental, health, and safety (EHS) industry serving clients by managing a wide variety of EHS projects at industrial, commercial, state, and federal facilities throughout the United States. He is responsible for business development, contract and project management, industrial hygiene and safety-related services, project oversight, training of clients and staff, regulatory review, and reporting.

CASE STUDY

Summary

Nova conducted on-site inspection and management for comprehensive asbestos surveys in over 150 occupied locations nationwide.

Solution

Nova assisted in public relations with management staff and employees and issued reports, as reviewed by Nova's Certified Industrial Hygienist, that included color digital photographs and digital drawings. Nova also submitted cost estimates for asbestos removal and monitoring activities.
